

Old Time QSL Cards from the Past Design

This 1930s Old QSL Card has long been a favorite in my collection. I have finally found an artist who has been able to duplicate this card with my call sign and information on it. How does it look?

If you are interested in making one of your own old QSL Card designs send me a note at w8jyz@arri.net and I will give you the details and connect you with my Artist friend. You can look through my scanned cards and find that special card you would like to duplicate. Remember, a QSL Card is a ham radio operator's calling card and is an expression of their individual creativity. Make yours special.

Thanks and 73 from Bob Green www.oldqslcards.com
